

Prize; Name an Organization or Profession, which Has Done More to Screw Up America?

Article by: Lance Winslow

What is the most deadly organization to the United States economy? If you answered Al Queda you are just an ignorant member of those who have surrendered their minds to the mass media hysteria on the six o' clock news. Oh really you say and ask well then hot shot what is it? Well, it is simple the most deadly and destructive organization is the American Bar Association and its members and thus the most deadly profession is that of the Lawyers.

The lawyers in America have done more to screw over America and our nations economy than back-to-back Hurricanes, locust plagues, Earthquakes, Super Volcanoes or those Al Queda idiots combined. In fact the lawyers are so destructive they are the single biggest problem in the world today. And no where on Earth are there more of these maggots than right here in the United States.

It is sure interesting that we spend billions to stop Al Queda and refuse to come to the reality that the real enemy is the sleeper cells calling themselves Law Firms. So, does that mean we should also hunt down all lawyers and kill them at time and place of their choosing you ask? Well, I did not say that you did. But I will refer to my good friend Caesar who had by for the best idea I have ever heard. Do consider this in 2006, we must stop them or all will be lost.
